Teaching Information

This scheme of work has been designed to be used in conjunction with your English writing curriculum. We recommend spreading the small steps out over the number of weeks suggested on the yearly overview. It is important to develop and build pupils' grammar, punctuation and spelling knowledge alongside reading and writing as this is the foundation of the English language. Understanding these elements of the English language enables pupils to not only enjoy English as a subject in its own right, but also to access the rest of the subjects within the whole curriculum.

Each block will develop English language fluency as well as application and reasoning to allow children to use these skills across all subject areas. We have provided some notes and guidance for each small step which breaks down the expectations for each pupil, as well as focused questions to help support your teaching.

Every step within each block has corresponding resources available on our website. These resources include a Teaching PowerPoint, Varied Fluency questions, and Reasoning and Application questions. The resources for each first step in every block are available to download for free.
